Horse Name	Sex	Time	Day 1	Day 2	Day 3	Date of HeV

Declaration by owner or person responsible for horses

I, declare that the horse/s named has / have been in good health, eating normally and not shown signs of illness during the last 10 days leading up to this event. I give my authorisation for the Event Organising Committee/Manager to call for veterinary inspection of the horse/s named above and in my care should they be showing signs of illness at any time during the course of the event. I agree to pay any veterinary fees incurred for the above mentioned horses as a result of this veterinary examination.

I AGREE PRIOR TO ATTENDING THE RIDE: 1. All horses will be shampooed, rinsed and allowed to dry, and their hooves will be picked clean of all solid material and washed with shampoo. 2. All vehicles and equipment accompanying the horses will be cleaned to remove all solid material that could contain disease agents, and then disinfected. I FURTHER DECLARE THAT: 3. The information contained in this Biosecurity Declaration is true and correct to the best of my knowledge. 4. I agree to abide by all conditions that may be imposed at any time by the Event Organising Committee/Manager. 5. I acknowledge that in failure to comply, I may be directed to leave and my nominations will be forfeited. 6. I acknowledge that decontamination and disinfection procedures may be required of me if instructed by the Event Organising Committee/Manager. 7. I acknowledge that there is a possibility that horses might become infected with disease agents as a result of any movements and if necessary horses and premises will be quarantined in accordance with any Legislation covering such occurrences including policies and procedures in effect at that time. I agree and acknowledge that the Manager/Event Organising Committee, it's State or National Affiliated bodies and their members are not in any way liable for any cost, expense, loss, damage, claim, action, proceeding or other liability incurred by or made against me as a result of any movement of horses to the Event/Farm.

- Horses requiring treatment at the event will be subject to a risk assessment to decide whether Hendra virus infection is a possibility. This risk assessment will be consistent with Government policy and will take into consideration known health conditions that a horse may experience.
- Should any horse develop symptoms considered abnormal, then the horse will be isolated and use of PPE initiated, further risk assessment undertaken and may involve a Hendra exclusion test undertaken and notification to state authorities.
- If a risk assessment indicates an unacceptable risk to the attending vet, certain high risk treatments may not be undertaken for these horses.
- Unvaccinated horses requiring treatment will be subject to a risk assessment by the attending vet and in consultation with a referral hospital may not receive advanced veterinary treatment.
- Horses which have been in close contact with horses deemed at high risk for Hendra Virus Infection may also be isolated and tested if advised by the state authorities.
- Biosecurity measures and Hendra exclusion testing will be at the expense of the responsible person for the horse.
- In the case of state authority involvement, there may be a period of quarantine including camp lockdown for all horses not vaccinated against the Hendra Virus. The person responsible for the horse will be responsible for the cost of feeding and care of their horse during the quarantine period.
